Addendum #1 to the Delaware Department of Justice
Request for Proposals for Special Legal Counsel

Date: September 8, 2015

RE: Proposal Number DOJ-08252015

This addendum is in response to questions posed by interested firms.

Question: Please provide additional information about the kinds of IT agreements that the Special IT Counsel would be expected to handle. Would the work primarily include acquisition of largely off-the-shelf products like email and word processing programs and related implementation services, or more customized products such as a new ERP system, state lottery software platform or electronic voting system? Please comment on the likely proportion of work that would be for highly-customized applications, as compared to more routine IT contracting.

Answer: The intent of this contract is to retain outside counsel for legal assistance dealing with issues relating to acquisition of and/or dispute resolution relating to the more highly-customized applications.

Questions: Please advise how frequently the State of Delaware has required outside counsel for IT disputes in the last 3-5 years.

Answer: The State of Delaware has not retained outside counsel for IT disputes in the last 3-5 years.
